

Training Plans • 5K Advanced

This is a challenging 6 week training program for 5k.

To do this program you must already have a good distance base developed and have been running for at least a year or two. I would already be doing some sort of hard workouts, probably tempo runs and longer intervals. If you are not ready to do this program you will get injured and really suffer. It is not for a novice runner or for a 20 minute 5k guy. I would suggest this for a runner trying to run under 16 minutes for 5k.
